## Education

### Jabalpur Engineering College

Bachelor of Technology in Computer Science and Engineering

2020 - 2024

CGPA 8.83/10

## Work Experience

### Solar Secure Solutions Pvt. Limited

Software Development Intern

Nov-Jan 2022

Remote

- Developed the website using **ReactJs**, which results in an increased **user attraction of about 40%**
- Made a **fully responsive** and completely operational for all types of devices

### Credanic

Software Development Intern

Oct-Nov 2022

Remote

- Developing their **website** with **React**
- The project contains **React Hooks**, **Navigations**, and integration of **REST APIs**
- Improved the overall user experience and upto **25% application performance** by minimizing the re-renders

## Projects

### Reservet | React.js, Node.js, Firebase, MongoDB | Live

- It is a team project for **Smart India Hackathon** which can **increase tourism by 70%**, it's an e-ticket portal that allows users to buy tickets for their visit to **historic places, monuments, and museums in India**
- Worked on the **Back-end** of the website and also helped my teammates with **Front-end Redux** data flow
- It uses **MERN** stack technology, where it has the integration of **Firebase** for authentication and **Razorpay API** for payments

### Yelpcamp | NodeJS, MongoDB, Express | Live

- Used monolithic model-view-controller **MVC** architecture to build a full-stack web application based on **NodeJS**
- The campgrounds and reviews of the campgrounds have all **CRUD** functionality which are being saved on MongoDB
- Passport JS** is being used for the authentication purpose

### News Aggregator | ReactJS, Django, BeautifulSoup | Github

- A **Django** project to scrape a news website using **BeautifulSoup** and **requests** module
- It has the functionality to filter out the data according to the users' wish
- React** serves as the frontend, handling the user interface and getting and setting data via requests to the **Django** backend, which is an API built using the **Django REST framework** (DRF)

## Achievements and Extra Curriculum

- Upcoming **Software Engineer Intern 2023** at **Atlassian**
- Smart India Hackathon 2022** National Runner-up. Out of **125** submission across India on our problem statement, we were among the **top 5** teams
- Highest rating of **1000** at Codeforces
- Highest rating of **1598** at Leetcode, with **500+** **DSA** questions solved
- Open Source Contributor in **HacktoberFest 2022** and merged more than 15 pull requests
- Receipient Of **MMVY** Scholarship

## Profile Links

- \* Leetcode
- \* Codeforces
- \* Geeks For Geeks

## Technical Skills

**Languages:** English and Hindi

**Skills:** C/C++, HTML, CSS, JavaScript, Python, React, Node.js, Express, MongoDB and Firebase

**Development Tools:** VS Code, Jupyter Notebook, Git and Github

**Core Subjects:** Object Oriented Programming, Operating System, DBMS and Computer Networks
