Education

Jabalpur Engineering College

Bachelor of Technology in Computer Science and Engineering

November 2020 - May 2024

CGPA 8.61/10

Work Experience

LG Ad Solutions

December 2024 - Present

Software Engineer

Bangalore

- Integrated **Spring Serve Tiles** a new programmatic partner, implementing request/response connectors with **unit and integration tests** to open up new revenue opportunities and grow programmatic demand, **powering a \$100K deal**
- Revamped inventory filtering in SSP portal with **Go-based backend APIs and interactive graph visualization**, significantly boosting **data clarity, operational visibility, and decision efficiency by 25%**
- Developed supply enrichment logic to augment SSAI ad requests with external server, **improving metadata accuracy for better ad targeting and segmentation; boosted fill rate by 15% and reduced request errors by 20%**
- Designed LLD** for scanned creative fixes and **optimized PagerDuty incident management** by refining schedules, escalation policies, and orchestration rules based on severity—gaining deep system-level insight
- Tech Stack:** Golang, Python, Apache Airflow (DAGs), Kafka, Redis, PagerDuty (Alerting & Incident Management)

Sharechat

June 2024 - October 2024

Software Engineer Intern

Bangalore

- Automated the offline report generation for **5+ queries** needed by the finance team by writing a **cron job in Golang**
- Implemented **frontend automation** for MOJ payments using **Maestro** covering **top 10 UI flows**
- Tested **CRON - payout report job in Golang with the Testify library**, integrated **SonarQube**, raised coverage from **0% to 75%** by adding **100+ tests** and incorporated error handling to cover failure scenarios

Atlassian

June 2023 - July 2023

Software Engineer Intern

Remote

- In Kotlin, performed unit testing using **JUnit and Mockito**, crafting **5+ test cases** to cover all edge scenarios
- Elevated **SonarQube** integration, augmenting code **coverage from 30% to 80%**, resulting in significant improvement
- Utilized **Workato** to integrate AI into **Jira Service Management** project, enhancing its functionality and automation

Projects

Reservet | React.js, Node.js, Firebase, MongoDB | Live

- It is a team project for **Smart India Hackathon** which can **increase tourism by 70%**, it's an e-ticket portal that allows users to buy tickets for their visit to **historic places, monuments, and museums in India**
- Worked on the **Back-end** of the website and also helped my teammates with **Front-end Redux** data flow
- It uses **MERN** stack technology, where it has the integration of **Firebase** for authentication and **Razorpay API** for payments

Technical Skills

Languages: English and Hindi

Skills: C/C++, JavaScript, Python, React, Node.js, Express, MongoDB and Firebase, Go

Development Tools: IntelliJ, Workato, Jupyter Notebook, Git, Github and VS Code, Golang, Maestro

Core Subjects: Object Oriented Programming, Operating System, DBMS and Computer Networks
